

Rely on rail to move all your shipments at once

Consolidate your shipments for
easy transport with Maersk Rail.

Choose Maersk Rail for a seamless supply chain in South Africa

Inject optionality into your supply chain with Maersk Rail by moving your cargo from strategic ports to various inland locations. Partner with us and bypass port related delays by moving large volumes of goods in single rail shipments with ease.

Secure storage during transit

Less than 1% risk of pilferage

Convenience of a single vendor

Competitive rates

On track at all times

While strong winds, inferior road conditions and accidents often disrupt other modes, rail remains active with little to no interruptions. Partner with us and avoid weather and road related disruptions. Enjoy the added advantage of regular updates on your cargo from origin till destination.

Bi-directional rail haulage

Handling of hazardous cargo with the exception of Class 1.1-1.7 and Class 7

Reduced carbon emissions per ton-km

Reefer plugin points during peak season (offered in Denver, City Deep and Belcon)
