## Deployment Changes

### Far East Asia to India Subcontinent Services

Dear Customer,

Due to unforeseen deployment changes, the FI3 position of the GSL ELENI will be phased out resulting in a blank sailing.

Our primary objective is to ensure predictability for our customers and minimize any disruptions to your supply chain. We are committed to providing alternative routes and coverage to the affected vessel positions.

To keep you well-informed of the situation, please find the latest scheduling details below:

#### Void Sailing:

Week	Service	Vessel	Voyage WB/EB	First Load Port	ETD	Last Load Port	ETD
06	FI3	GSL ELENI	506W/510E	QINGDAO	07-02-2025	MUNDRA	10-03-2025

Our teams will continue to make sure customer impact is minimized by rebooking cargo to the remaining network in advance. We understand the importance of this matter to your business and supply chain, we remain committed to providing timely updates.

We value our continued relationship with you and remain committed to providing you with clear visibility into any changes and reliable solutions for your logistics needs.

Best regards,

A.P. Moller – Maersk
